

## **Dr. Henning Grosse Ruse-Khan**

Henning Grosse Ruse - Khan is a senior research fellow at the Max Planck Institute for Intellectual Property, Competition and Tax Law in Munich, Germany (since 2007). He previously worked as a Lecturer in International Trade Law at the University of Leicester, United Kingdom (2005-2007), as visiting scholar on WTO-, International Trade- and Intellectual Property Law at the International Islamic University in Islamabad, Pakistan (2004-2005) and as research fellow at the Institute for Information- Telecommunication and Media Law at the University of Muenster, Frankfurt a. M., Germany (2000-2003).

His research, policy advice and teaching focuses on international intellectual property protection and development issues, WTO law, negotiations and dispute settlement as well as other issues of international economic law.

Next to a monograph on international intellectual property (IP) protection for databases, Henning has published widely in peer reviewed international academic journals, NGO policy papers and research handbooks. His more recent research focus includes international IP enforcement; regional and plurilateral trade agreements (especially EPAs and ACTA) and their relation to WTO law; operationalising the concepts of sustainable development and corporate social responsibility; and linkages between IP, climate change, food security, public health and access to knowledge. He is executive Editor for the Commonwealth region of the International Review of Intellectual Property and Competition Law (IIC). Further, Henning has provided advice to NGOs, IOs, multinational companies and developing country industries on policy space in WTO/TRIPS implementation; patent protection and public health issues, international and European IP and information law, and the effective use of WTO dispute settlement for developing countries and small economies. He has trained government officials of WIPO Member States on IP Enforcement issues. Finally, Henning teaches at the Ludwig Maximilian University of Munich (LMU), the International Max Planck Research School for Competition and Innovation (IMPRS CI), at the Centre for International Intellectual Property Studies (CEIPI, Strasbourg) and the Munich Intellectual Property Law Centre (MIPLC).
